

Department of Energy

§ 609.5

(vi) The owners or controllers of the intellectual property incorporated in and utilized by such technologies; and

(vii) The manufacturer(s) and licensee(s), if any, authorized to make the technology available in the United States, the potential for replication of commercial use of the technology in the United States, and whether and how the technology is or will be made available in the United States for further commercial use;

(3) The estimated amount, in reasonable detail, of the total Project Costs;

(4) The timeframe required for construction and commissioning of the project;

(5) A description of any primary off-take or other revenue-generating agreements that will provide the primary sources of revenues for the project, including repayment of the debt obligations for which a guarantee is sought.

(6) An overview of how the project complies with the eligibility requirements in section 1703 of the Act (42 U.S.C. 16513);

(7) An outline of the potential environmental impacts of the project and how these impacts will be mitigated;

(8) A description of the anticipated air pollution and/or anthropogenic greenhouse gas reduction benefits and how these benefits will be measured and validated; and

(9) A list of all of the requirements contained in this part and the solicitation and where in the Pre-Application these requirements are addressed;

(d) A financing plan overview describing:

(1) The amount of equity to be invested and the sources of such equity;

(2) The amount of the total debt obligations to be incurred and the funding sources of all such debt if available;

(3) The amount of the Guaranteed Obligation as a percentage of total project debt; and as a percentage of total project cost; and

(4) A financial model detailing the investments in and the cash flows generated and anticipated from the project over the project's expected life-cycle, including a complete explanation of the facts, assumptions, and methodologies in the financial model;

(e) An explanation of what estimated impact the loan guarantee will have on the interest rate, debt term, and overall financial structure of the project;

(f) Where the Federal Financing Bank is not the lender, a copy of a letter from an Eligible Lender or other Holder(s) expressing its commitment to provide, or interest in providing, the required debt financing necessary to construct and fully commission the project;

(g) A copy of the equity commitment letter(s) from each of the Project Sponsors and a description of the sources for such equity; and

(h) A commitment to pay the Application fee (First Fee), if invited to submit an Application.

[74 FR 63549, Dec. 4, 2009, as amended at 76 FR 26582, May 9, 2011]

§ 609.5 Evaluation of Pre-Applications.

(a) Where Pre-Applications are requested in a solicitation, DOE will conduct an initial review of the Pre-Application to determine whether:

(1) The proposal is for an Eligible Project;

(2) The submission contains the information required by § 609.4 of this part; and

(3) The submission meets all other requirements of the applicable solicitation.

(b) If a Pre-Application fails to meet the requirements of paragraph (a) of this section, DOE may deem it non-responsive and eliminate it from further review.

(c) If DOE deems a Pre-Application responsive, DOE will evaluate:

(1) The commercial viability of the proposed project;

(2) The technology to be employed in the project;

(3) The relevant experience of the principal(s); and

(4) The financial capability of the Project Sponsor (including personal and/or business credit information of the principal(s)).

(d) After the evaluation described in paragraph (c) of this section, DOE will determine if there is sufficient information in the Pre-Application to assess the technical and commercial viability

of the proposed project and/or the financial capability of the Project Sponsor and to assess other aspects of the Pre-Application. DOE may ask for additional information from the Project Sponsor during the review process and may request one or more meetings with the Project Sponsor. Any additional information submitted will be treated as provided in 10 CFR 600.15 and must be marked as provided in 10 CFR 600.15(b).

(e) After reviewing a Pre-Application and other information acquired under paragraph (c) of this section, DOE may provide a written response to the Project Sponsor or Applicant either inviting the Applicant to submit an Application for a loan guarantee and specifying the amount of the Application filing fee (First Fee) or advising the Project Sponsor that the project proposal will not receive further consideration. Neither the Pre-Application nor any written or other feedback that DOE may provide in response to the Pre-Application eliminates the requirement for an Application.

(f) No response by DOE to, or communication by DOE with, a Project Sponsor, or an Applicant submitting a Pre-Application or subsequent Application shall impose any obligation on DOE to enter into a Loan Guarantee Agreement.

[74 FR 63549, Dec. 4, 2009, as amended at 76 FR 26582, May 9, 2011]

§ 609.6 Submission of Applications.

(a) In response to a solicitation or written invitation to submit an Application, an Applicant submitting an Application must meet all requirements and provide all information specified in the solicitation and/or invitation and this part. The information submitted in or in connection with Applications will be treated as provided in 10 CFR 600.15 and must be marked as provided in 10 CFR 600.15(b).

(b) An Application must include, at a minimum, the following information and materials:

(1) A completed Application form signed by an individual with full authority to bind the Applicant and the Project Sponsors;

(2) Payment of the Application filing fee (First Fee) for the Pre-Application, if any, and Application phase;

(3) A detailed description of all material amendments, modifications, and additions made to the information and documentation provided in the Pre-Application, if a Pre-Application was requested in the solicitation, including any changes in the proposed project's financing structure or other terms;

(4) A description of how and to what measurable extent the project avoids, reduces, or sequesters air pollutants and/or anthropogenic emissions of greenhouse gases, including how to measure and verify those benefits;

(5) A description of the nature and scope of the proposed project, including:

(i) Key milestones;

(ii) Location of the project;

(iii) Identification and commercial feasibility of the new or significantly improved technology(ies) to be employed in the project;

(iv) How the Applicant intends to employ such technology(ies) in the project; and

(v) How the Applicant intends to assure, to the extent possible, the further commercial availability of the technology(ies) in the United States;

(vi) For clarity, with respect to any project in which project assets or facilities are jointly owned by the Applicant and one or more other persons, each of whom owns an undivided ownership interest in such project assets or facilities, the Applicant may submit a project proposal with respect to its undivided ownership interest in such project assets or facilities.

(6) A detailed explanation of how the proposed project qualifies as an Eligible Project;

(7) A detailed estimate of the total Project Costs together with a description of the methodology and assumptions used;

(8) A detailed description of the engineering and design contractor(s), construction contractor(s), equipment supplier(s), and construction schedules for the project, including major activity and cost milestones as well as the performance guarantees, performance bonds, liquidated damages provisions,
